Dennis Goetz - Gilead Pharmaceuticals

- Performance Measures were discussed (Rachel LaCroix lead speaker)
 - 2015 data should be available by the next meeting
 - Information is available on the website under the report guide section
 - For measure #2 (2 or more visits 182 days apart), Jesse Fry suggested that one visit per year is sufficient for members who have been under long term treatment.
 - Jesse Fry suggested Dr. Maziado (TMH Medical Director) for the committee and will supply contact information.
 - Rachel LaCroix will send the link to the HIV specific performance measures to disseminate.
- Sophia Whaley provided the committee with the updated HIV/AIDS algorithm.
 - Jesse Fry had a concern regarding Justin Senior's specialty pharmacy presentation regarding the member's right to have choice.
 - Requested to know how plans communicate this requirement to members. He requested that we receive all communication and ask how often members receive such communication.
 - Jesse Fry stated that he was going to reach out to Dr. Ben Browning to offer a suggestion for another committee member.

- Closing comments
 - Jesse Fry asked if the Agency could break out complaints summary report to show the HIV/AIDS population. Mr. Fry was informed that all complaints are not that specific and some are very general and vague. For instance, it could just state an issue with medication and not what type of medication.
 - Sophia Whaley adjourned the meeting.
