**July Monthly Actions: Agency Took Licensure Action against Six Providers, Seven Additional Providers Terminated or Suspended from the Medicaid Program**

**Tallahassee, Fla.** – The Agency for Health Care Administration (Agency) issued final orders to six providers for failure to meet licensure requirements in July.

There were two final orders to revoke an existing license and four that resulted in the provider surrendering their license. Some of these providers were enrolled in the Medicaid program and the Agency has terminated or is in the process of terminating their participation in the program.

Another provider was issued a final order terminating them from participation in the Medicaid program. This termination resulted from being terminated from participation in the Medicare program by the Federal government. This provider has been reported to the federal government for placement on the federal exclusion list, which prohibits them from participating in Medicaid and Medicare nationwide.

There were also six providers suspended from participation in the Medicaid program for being indicted on health care fraud charges. These providers are prohibited from being paid for claims to the Medicaid program for furnishing, supervising a person who is furnishing, or causing a person to furnish goods or services.

The chart below displays the Agency’s July licensure actions:
