Secretary Mayhew's Statement on the Passage of SB 1528/HB 19: Prescription Drug Importation Programs

Tallahassee, Fla. – Today, Agency for Health Care Administration Secretary Mary Mayhew issued the following statement in response to the passage of SB 1528/HB 19: Prescription Drug Importation Programs:

“Governor DeSantis took office with an ambitious vision for health care reform in Florida, and less than three months after announcing his plan for a prescription drug importation program, the Florida Legislature approved an avenue for our state to make these medicines more affordable for our residents and their families. I applaud the Governor for his efforts toward this goal, and I commend our leaders in the Legislature for passing this critical piece of legislation.”
