

Florida's Medicaid 1115 Managed Medical Assistance Waiver Extension Request

Agency for Health Care Administration

October 21, 2016

Public Meeting

1115 Research and Demonstration Waivers

- Experimental, pilot, or demonstration projects that promote the objectives of the Medicaid and CHIP programs. The purpose of these demonstrations, which give states additional flexibility to design and improve their programs, is to demonstrate and evaluate policy approaches such as:
 - Expanding eligibility to individuals who are not otherwise Medicaid or CHIP eligible
 - Providing services not typically covered by Medicaid
 - Using innovative service delivery systems that improve care, increase efficiency, and reduce costs

1115 Research and Demonstration Waivers

- Demonstrations must also be "budget neutral" to the federal government, which means that during the course of the project, federal Medicaid expenditures will not be more than federal spending without the waiver.
- A final rule, effective on April 27, 2012, established a process for ensuring public input into the development and approval of section 1115 demonstrations.

Public Notice and Comment Period

- Prior to submitting an application to the Centers for Medicare and Medicaid Services (CMS) for a new demonstration project or an extension of a previously approved demonstration project, the State must provide at least a 30-day public notice and comment period.
- Florida is required to publish a comprehensive description of the program for review and comment for at least 30 days:
 - http://b.ahca.myflorida.com/medicaid/Policy_and_Quality/Policy/federal_authorities/federal_waivers/mma_fed_auth_extension_2016-10.shtml
- The public comment period is through November 10, 2016.

 - Plans in Regions 1 and 2 to have a network sufficient to meet 200% of actual monthly enrollment.

Provider Network Information: Provider Network Verification (PNV)

- PNV is an automated system designed to assure that network providers have valid licensure, background screening, and are known to Medicaid.
- Provides network-related reports and queries for network research.
- Recipients can also access PNV data through a secure web portal.
- Plans update their networks to PNV weekly.

Goal

- Improve program performance, particularly improved scores on nationally recognized quality measures
 - Health Plan Effectiveness Data and Information Set (HEDIS)
 - Consumer Assessment of Health Plan Satisfaction (CAHPS)

Enhanced Quality: HEDIS

HEDIS: Healthcare Effectiveness Data and Information Set

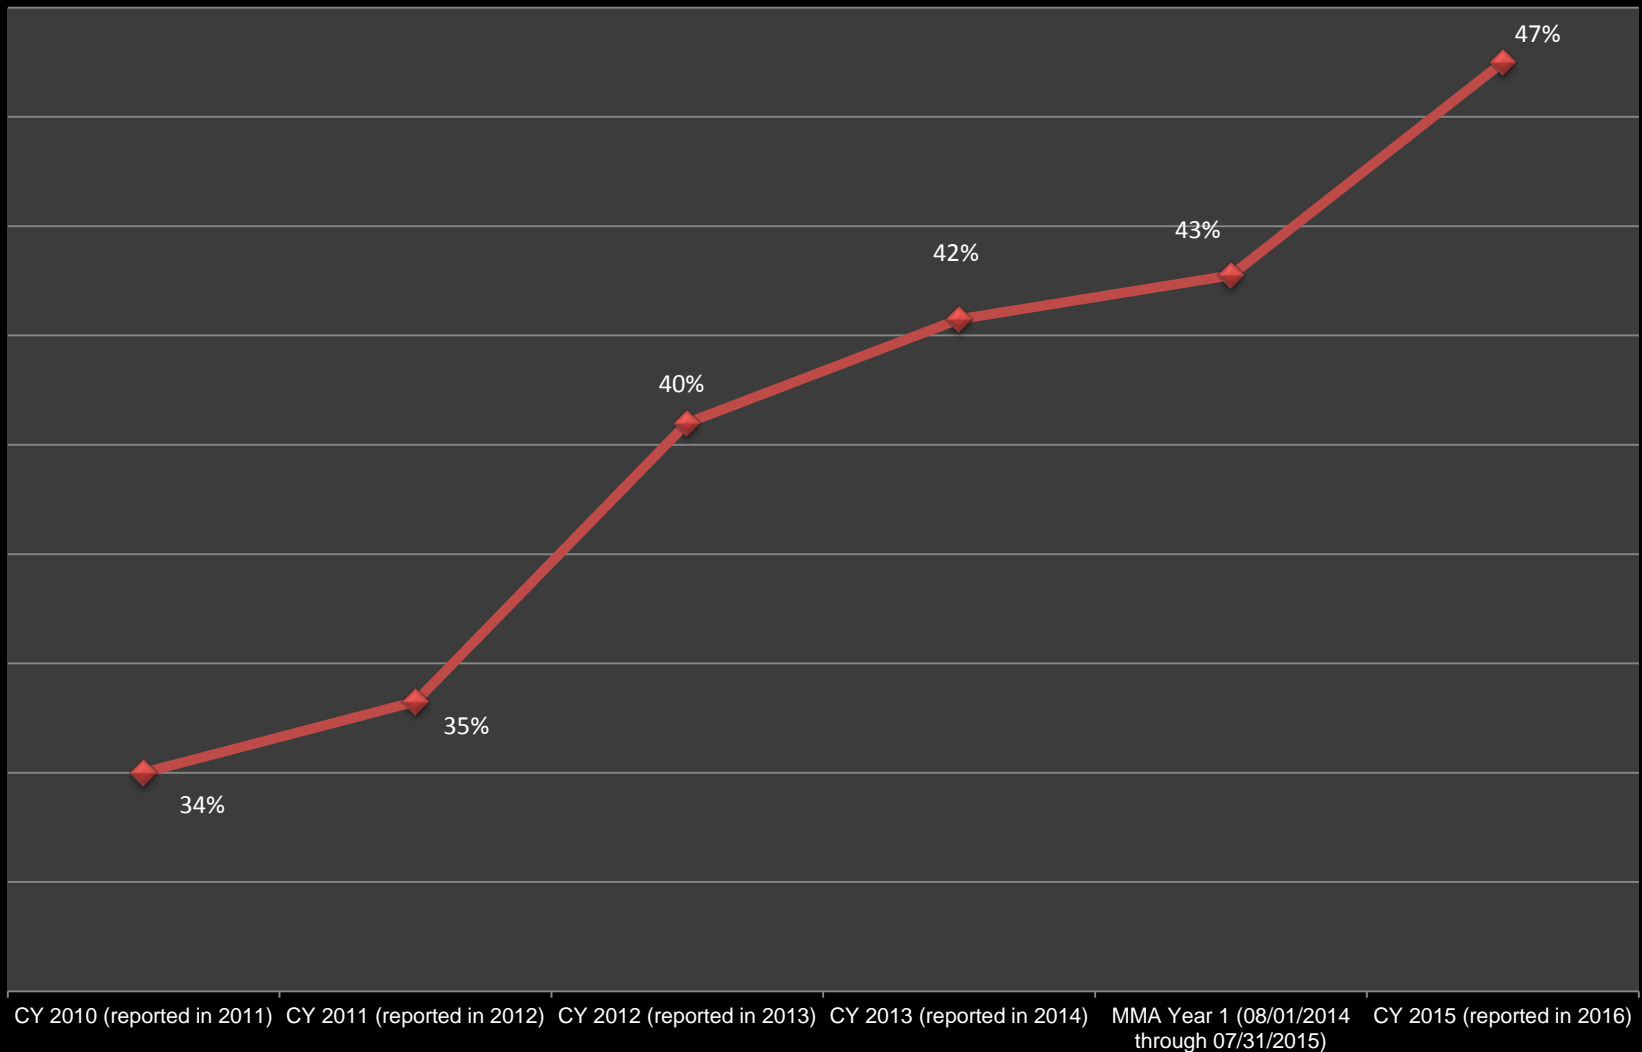

- National Committee for Quality Assurance’s standardized set of performance measures.
- Used by over 90% of health plans in the U.S.
- Detailed technical specifications ensure that measures are calculated consistently.
- Calculated by a certified auditor.
- Allows “apples-to-apples” comparison of health plans.

MMA HEDIS Scores Are the Highest Ever

HEDIS Dental Visit Score Calendar Year 2010 - Calendar Year 2015

Note: MMA Year 1 (08/01/2014 - 07/31/2015) calculated by the Agency using the same parameters required to calculate the HEDIS children's dental care annual dental visit measure, but changed the enrollment period measured to accommodate the 2014 transition
