1.0 Introduction

1.1 Description

Florida Medicaid anesthesia services include the management of general anesthesia to render a recipient insensible to pain and emotional stress during medical procedures.

1.1.1 Florida Medicaid Policies

This policy is intended for use by providers that render anesthesia services to eligible Florida Medicaid recipients. It must be used in conjunction with Florida Medicaid's general policies (as defined in section 1.3) and any applicable service-specific and claim reimbursement policies with which providers must comply.

Note: All Florida Medicaid policies are promulgated in Rule Division 59G, Florida Administrative Code (F.A.C.). Coverage policies are available on the Agency for Health Care Administration's (AHCA) Web site at <http://ahca.myflorida.com/Medicaid/review/index.shtml>.

1.1.2 Statewide Medicaid Managed Care Plans

This Florida Medicaid policy provides the minimum service requirements for all providers of anesthesia services. This includes providers who contract with Florida Medicaid managed care plans (i.e., provider service networks and health maintenance organizations). Providers must comply with the service coverage requirements outlined in this policy, unless otherwise specified in AHCA's contract with the Florida Medicaid managed care plan. The provision of services to recipients in a Florida Medicaid managed care plan must not be subject to more stringent service coverage limits than specified in Florida Medicaid policies.

1.2 Legal Authority

Anesthesia services are authorized by the following:

- Title XIX of the Social Security Act (SSA)
- Title 42, Code of Federal Regulations (CFR), Parts 440 and 441
- Section 409.905 Florida Statutes (F.S.)
- Rule 59G-4.022, F.A.C.

4.3 Early and Periodic Screening, Diagnosis, and Treatment

As required by federal law, Florida Medicaid provides services to eligible recipients under the age of 21 years, if such services are medically necessary to correct or ameliorate a defect, a condition, or a physical or mental illness. 8.0 Reimbursement

8.1 General Criteria

The reimbursement information below is applicable to the fee-for-service delivery system, unless otherwise specified.

8.2 Claim Type

Professional (837P/CMS-1500)

8.3 Billing Code, Modifier, and Billing Unit

Providers must report the most current and appropriate billing code(s), modifier(s), and billing unit(s) for the service rendered, as incorporated by reference in Rule 59G-4.002, F.A.C.

8.3.1 Billing Code

Providers must include the appropriate code based on the major procedure performed on the claim form.

Providers must use procedure code 01967 for continuous epidural analgesia during labor and vaginal delivery on the claim form.

Providers must use procedure code 01967 with the service time, and 01968 with one minute of service time if the service progressed to a caesarian delivery.

8.3.2 Modifier

Providers must include the following modifiers, as appropriate, on the claim form:

- 78 Unplanned return to the operating room, related procedure
- QK Physician supervision of anesthesia
- QS MAC

8.3.3 Billing Unit

Providers must include the number of units on the claim form based on the total anesthesia service time. Any portion of a 15-minute increment equals one unit.

The calculation for reimbursement of anesthesia services is:

Anesthesia Base Rate + (time/15 x \$14.50) = maximum reimbursement.

- Time is reported in total minutes, not units. During claim processing, the total time is divided by 15-minute increments. The resulting number will always round down to the nearest whole unit.

Example: If total time is 53 minutes $53/15=3.53$, which will be rounded down to 3 units.

8.4 Diagnosis Code

Providers must report the most current and appropriate diagnosis code to the highest level of specificity that supports medical necessity, as appropriate for this service.

8.5 Rate

For a schedule of rates, as incorporated by reference in Rule 59G-4.002, F.A.C., visit AHCA's Web site at <http://ahca.myflorida.com/Medicaid/review/index.shtml>.
