**State Consumer Health Information and Policy (SCHIP) Advisory Council
Meeting Minutes**

Date: March 7, 2024

Time: 10:00 AM to 2:00 PM

Location: Florida Center 2727 Mahan Drive Building 3, Tallahassee, FL 32308

Members Present: Karen van Caulil, Ph.D., Joyce Case, Jarrod Fowler, Diane Godfrey, Dennis Hollingsworth, Lindy Kennedy, Cindy Meredith, David Shapiro, Andrew Weatherill, Ed.D.

Agency Staff Present: Jaime Bustos, Pamela King, Crystal Ritter, Meredith Hayes, Jamie Harley, Milly Hardin, Sketch Piers, Taft Jackson, Suzanne Kirayoglu, Dana Watson, Dylan Dunlap, Patricia Vidal

Interested Parties Present: Brian Smart, Alex Golden, Ashley Tait-Dinger, Deborah Foote, David Dieterich, Jill Parker, Lisa Rawlins, Anthony Durate, Owen Quinonez, Bruce Culpepper, Steve Stallard, Cynthia Cooper, Claudia Wright Walton, Jason Hand, Susan Anderson, Steve Stallard

Meeting Materials: [State Consumer Health Information and Policy Advisory Council \(myflorida.com\)](https://myflorida.com)

Call to Order & Welcome:

Dr. van Caulil called the meeting of the SCHIP Council to order at 10:01 a.m. and reminded the attendees that the meeting was being recorded for note-taking purposes. She welcomed the members and attendees.

Roll Call:

Since there were two new council members, Dr. van Caulil asked everyone on the Council and Agency staff to introduce themselves as a means of roll call.

After introductions, Ms. King noted the members present in person and virtually. She highlighted the members not in attendance for the record and clarified that there was a quorum.

Agency Update:

- Mr. Bustos provided Agency updates specifically touching on legislative bills impacting the Florida Center (SB 668 Electronic Health Records, and SB 7016 Live Healthy Bill).

The Council ask for Florida Center staff to provide a summary of all legislation impacting the Agency and/or health care facility providers.

Review and Approve Meeting Minutes:

Ms. Kennedy moved to approve the meeting minutes as presented. Mr. Hollingsworth seconded the motion which was carried unanimously.

Previous Action Items: Ms. King provided the following update on the action items from the previous meeting:

- A list of bills that may be of interest to the Committee was previously emailed.
- It was determined that providing copies of Agency bill analyses would be counterproductive as they could be outdated by the time it was provided to the members and that the best analyses could be found on the legislative website.
- The Agency reviewed Senate Bill 668 language to ensure intent was clear, but it was no longer valid as the bill has not moved forward.
- It was determined that the training video for the transparency page could not be moved due to technical issues. The Agency has added a new mega menu tab at the top of the FloridaHealthFinder's (FHF) homepage called "Site Navigation Videos" that will take users to the video.
- It was clarified that the option to search by city and provider was already available on FHF by selecting "All" and then filtering. Updates are underway to improve search functionality in phase 2 of the updates.
- Jaime Bustos will be reaching out to Council members to schedule time for individualized walkthroughs for them and their constituents of the Florida Health Transparency pages.
- A QR code and email signature for FHF were sent to all members of the Council.
- The Agency is still working to see if a note could be added to FHF for consumers to "Confer with their insurance plans to see if they provide services with certain providers or organizations".
- Two links to a printable pdf about FHF were sent to Council members. The Council requested that the information be consolidated into one link for sharing.
- Staff surveyed Council members and the meetings for 2024 have been scheduled.
- The staff is still working with the Chair to set up the retreat and will include the Health Information Exchange Coordinating Committee (HIECC) and the Legal Work Group members once the date is solidified.
- Dr. van Caulil asked that the Agency push off the retreat for this year but should have a "parking lot" for what topics and issues to address.

Further discussion about the retreat was tabled until later in the meeting.

HIECC Report:

Dr. van Caulil asked Ms. Marie Ruddy to provide the update from the last HIECC meeting. Ms. Ruddy shared that the HIECC met on February 14, 2024.

Ms. Ruddy noted that the Agency provided an update on state health care provider interoperability. She advised that there continues to be an increase in connectivity to the national networks for Patient Record Exchange (Query Exchange). In 2022 there were 182 hospitals connected to the national networks and in 2023 there were 234 hospitals connected. The Agency anticipates this number to increase as the Trusted Exchange Framework and Common Agreement (TEFCA) moves toward completion.

The Agency also shared that they are continuing to see success in utilization of the Florida HIE's Encounter Notification Service (ENS). The number of alerts in ENS increased by over 30 million from 2022 to 2023. The ENS had an addition of 37 subscriber agreements signed in 2023. A distinction was made that subscription agreements may be signed for multiple facilities. Also, the ENS had an addition of 82 new data senders last year.

The Committee discussed the impact that the changes to 42 CFR Part 2 make substance use data exchange policy more similar to HIPAA standards, and the impact this could have on data exchange both for the state and nationally. There was further discussion on the sharing of behavioral health data in general and the efforts that are being made to improve the needs in this area.

The Agency provided a demonstration of their Emergency Patient Look-Up System (E-PLUS). They shared the benefits already seen from past disasters and their work to increase awareness and utilization during an emergency event. They were also made aware of the SCHIP Council's desire to hold a workshop later in the year.

The next meeting of the HIECC is scheduled for May 8, 2024, from 1-3 p.m.

The only other business for the HIECC was a nomination for Joe Velderman to serve as replacement for Peter Kress in representing long-term care facilities. His information was provided for the Council's consideration.

Approval of New HIECC Member: After discussion, Lindy Kennedy moved to approve Joe Velderman as a new member of the HIECC. Diane Godfrey seconded the motion which was carried unanimously.

Pathway to Prosperity Overview: Taylor Peck with the Department of Children and Families provided an overview of the pathway to prosperity program and their efforts to improve services to Floridians.

Taylor started off with an overview about Hope Florida. Noting that Hope Florida is an initiative spearheaded by First Lady Casey DeSantis, which utilizes Hope Navigators to guide Floridians on an individualized path to prosperity, economic self-sufficiency, and hope by focusing on community collaboration between the private sector, faith-based community, nonprofits, and government entities. The initiative helps to break down traditional community silos, maximize support, and uncover opportunities.

Taylor also explained the role of Hope Navigators. They work hand-in-hand with individuals to identify their unique barriers to prosperity and engage all sectors of the community to be a crucial part of the solution. Hope Navigators help to identify long-term goals and develop a strategic plan to make success a reality. Additionally, Hope Navigators help identify and organize opportunities for Floridians who wish to help their neighbors by connecting them with volunteer opportunities through a care portal.

Direct participating agencies working with the Department of Children and Family include Department of Elder Affairs, Guardian Ad Litem, Department of Juvenile Justice, Department of Veteran Affairs, and Agency for Persons with Disabilities. Ms. Peck noted that other agencies are involved indirectly by providing data or providing services.

Dr. Weatherill noted that the Department of Education may want to have further conversations about program. He noted that schools could be a resource in directing Floridians to the Hope Navigator initiative.

There was much discussion by Council members about the program and their willingness to connect with the various constituencies they represent.

Unit Updates:

Mr. Bustos provided an overview of the Florida Center Unit activities since the last meeting:

- Office of Data Dissemination and Transparency: Mr. Bustos updated the Council on the work being done to modernize the transparency websites.
- Office of Data Collection and Quality Assurance: It was noted that the Office of Data Collection and Quality Assurance held its first meeting of the Blood Clot and Pulmonary Embolism Policy (BEPEP) Workgroup and that they would be meeting again in the near future. Mr. Bustos reminded the Council that this was a time-limited workgroup.
- Office of Health Information and Exchange: Mr. Bustos provided a brief update on the Florida HIE, E-PLUS, and Patient Safety Culture Survey Program. The Council asked for

more information on the Patient Safety Culture Survey program. Meredith Hayes gave an update on the current process for the program.

Update of Federal Policies Impacting Data Sharing

Milly Hardin provided an update on changing federal regulations and policies that may impact Florida patients and providers. The update included information on the TEFCA. She clarified that the implementation of this policy for HIE does not directly impact the Florida HIE, since providers have been connecting nationally for a number of years.

Ms. Hardin also provided information on changes that were made to 42 CFR, Part 2 related to the sharing of substance use disorder data. The provisions were changed to more closely resemble the requirements in the Health Information Portability and Accountability Act. She did clarify that compliance with these provisions is not required until 2026.

Lunch 12:00 – 12:10 p.m.

Action Items (Continued)

Dr. van Caulil discussed the retreat with the members. During the discussion they decided the end of this year or the beginning of next year would be a good time to have the retreat align with the evolving program implementations.

Public Comments: There were no public comments.

Meeting Summary: Pamela King and Dr. van Caulil provided the meeting summary.

Next Steps:

New Action Items	Owner
Provide a summary of legislation impacting the Agency	
Provide a list of connected ENS facilities to the members	
Add reminder to FHF for consumers to see if their insurance plans participate with certain providers or organizations.	
Add an item on the regular Agenda for Retreat Discussion Items	
Notify the Council members when the Florida HIE's ITN has been released	
Have a presentation on the timeline for research data being available on the transparency sites at the next meeting.	

Share the slide deck on federal policy updates	
Provide a matrix of the Council responsibilities and any program with contracts associated with those responsibilities at the June meeting.	
Jaime Bustos will schedule premeeting calls with members before scheduling an overview of the new transparency websites for them and their constituency.	
The Council requested they receive materials two weeks prior to the meetings.	
Provide information on how FHF system determines where facilities are located in relation to the person looking for facilities near them.	
Get Hope Florida marketing materials to share with the council members.	

Adjourn: With no further business to discuss, Ms. Godfrey moved to adjourn, the motion was seconded by Ms. Kennedy. With no objections the meeting adjourned.

Department of Education Resiliency Initiatives

HIECC Report

- **Approval of New HIECC Member (action item)**

Andrew Chang is a dynamic and results-driven leader in the value-based sector of healthcare, holding the esteemed position of Market President for the Florida, Georgia, and South Carolina markets' Accountable Care Organizations (ACOs) at Aledade, Inc. With more than a decade of clinical and administrative experience in healthcare, Andrew is a recognized expert in a wide range of areas. Andrew's extensive expertise includes a profound understanding of:

Population Health	Social Determinants of Health (SDoH)	Strategic Implementation	Health Economics
ACO Management	Health Equity & Outcomes	Quality Measures	Short-Range Planning
Health Innovation	Health Policy & Regulation	Health Analytics	Long-Range Planning
Value-Based Care	Strategic Payer Partnerships	Program Management	Primary Research
Risk-Adjustment		Patient Engagement	Secondary Research

Since joining Aledade in 2018, Andrew has led his combined ACOs across various healthcare sectors, including Medicare, Medicare Advantage, Medicaid, and Commercial, to achieve extraordinary results, generating more than \$75 million in shared savings. Through his visionary leadership, he has fostered strategic payer partnerships, successfully launched new lines of business to expand the existing network portfolio, and bolstered provider relations and network connections. Andrew's profound insights into the dynamic realm of value-based medicine make him an invaluable source of knowledge for individuals seeking to grasp the nuances associated with the transition from fee-for-service to value-based healthcare. He is well-versed in upcoming value-based programs from payers and the government, and possesses deep insights into the implications of shifting models and programs. Furthermore, he possesses an astute understanding of existing and upcoming policies and regulations that impact the industry.

Beyond his contributions to healthcare, Andrew possesses a deep-rooted passion for community well-being, health, and the arts. In 2017, he successfully launched [Swan City Orlando](#), a thriving small business that showcases his artistic expressions and love for Orlando through apparel, art, and more. Andrew's commitment to his community is further demonstrated by his active involvement on various boards that align with his values and passions. Since March 2021, he has been serving on the board of the Florida Association of ACOs (FLAACOs), where he actively contributes to shaping the future of accountable care organizations. Moreover, starting from March 2023, he has been a valuable member of the board at Snap! Orlando, an organization that celebrates and promotes the visual, digital and emerging arts within the community.

Andrew Chang epitomizes excellence and innovation in healthcare leadership while concurrently nurturing his community's health, wellness, and artistic pursuits. His multifaceted expertise, strategic acumen, and unwavering dedication to both healthcare and community make him an influential figure poised to shape the future of value-based medicine and community well-being.

EDUCATION

University of Central Florida
Orlando, FL

Master of Science: Health Services Administration

Bachelor of Science: Health Services Administration

Eastern Florida State College
Palm Bay, FL

Associate of Arts

COMMUNITY

Florida Association of ACOs (FLAACOs): Board Member
2021 - Present

Snap! Orlando: Board Member
2023 - Present

Impulse Group United: Board Member, Events
2016-2017

Leukemia & Lymphoma Society (LLS): Man & Woman of the Year Campaign Chair
2013 - 2017

Aledade, Inc. Orlando, FL
Executive Director, FL | 07/2018 - 02/2020

- In 2018, garnered \$3.4 million in Medicare Shared Savings Program (MSSP) and more than \$377K in Commercial Savings since starting
- In 2019, garnered \$4.2M in MSSP, 22% increase year over year
- Grew the FL market by 94% in Medicare beneficiaries via practice partnership from 2018 to 2020
- Acquired largest commercial first deal in the history of Aledade in Florida - added 40K lives under management for the first year
- Seen as a thought leader for the company and engaged with multiple parties across departments to help enhance the work of Aledade
- Achieved an Aledade North Star award within the first six months for having one of the highest KPIs in the company
- Achieved the highest overall physician satisfaction in 2018 across Aledade via Net Promoter Score
- Responsible for the success of our independent physician partners in their value-based journey through not only the Medicare Shared Savings Program but also through commercial contracting
- Have built up growth to build out our FL field team thus providing upward mobility for employees
- Lead in the company for the population health initiative of providing rideshare options to our market so that access to care is no longer a barrier and outcomes of reduced ED visits, reduced specialist visits and increased visits to their primary care may be achieved
- Lead in company for community health pilot deploying paramedics into the home for cost savings and quality; expanding pilot for full study in Q1 2021

Advent Health. Orlando, FL
Senior Manager | 03/2016 - 07/2018

- Responsible for supporting strategic and operational initiatives for the Multi-State Division, which includes eight facilities across five states to grow the overall organization
- Worked with cross-departmental teams to foster relationships that drive success for the division
- Led the launch of establishing five databases to access and trend state reported data
- Created five databases to project physician supply and demand for each state and facilitates physician recruitment discussions with reports from this database
- Created dashboards for C-Suite to display each facilities position in the market
- Evaluated new markets for business opportunities to include detailed competitor analyses and existing industry structures; designed the supporting data to launch a free-standing ED in the TX market and adjust the build timeline for a campus in the KS market
- Provided managerial support to a team of analysts with a focus on fostering development
 - Maintains the integrity of both primary and secondary database systems
- Lead out on engagements with external consultants by supplying all pertinent detail and ensuring agreed upon deliverable is provided within the outlined timeline
- Oversaw the relationship management of vendors and their products used by the team

- Developed actionable recommendations based on market insights to address business needs and objectives; acquisition of clinics in the five states to further network integrity and establish/grow physician enterprise
- Created forecasting models leading to short- and long-term capital investment strategies
- Administered data and supporting documents for annual corporate strategic planning
- Maintained, improved, and implemented controls and processes to ensure integrity, efficiency, and accuracy of data and tools (i.e. Truven, State Data, Physician Roster Data, Claims, etc.)

Program Manager, Advent Health For Seniors. Orlando, FL
Advent Health | 06/2015 - 03/2016

- Managed Florida Hospital for Seniors and coordinated all logistics and programs
- Identified geriatric service line to better provide care delivery to the community
- Launched a partnership program to combat readmissions and increase wellness post-discharge
- Informed and engaged C-Suite in net new revenue strategies
- Created a quality database for our geriatric practice to use to track KPIs and change course of care in an agile manner
- Participated in public relations and community activities to promote Florida Hospital for Seniors and Winter Park Memorial Hospital
- Coordinated efforts between and partnered with community leaders to better care for geriatric community in a more dynamic and coordinated environment
- Aided in the change of important end of life documents, program policies and procedures to ensure patients had appropriate planning in place
- Maintained statistical and financial data to trend and display in custom dashboards
- Led ad-hoc advisory councils made up of physicians, clinicians, and leaders to collaborate on the advancement of the program and produce innovative solutions
- Created business plans for innovative programs for both short-term and long-term
- Assisted with changing facility culture to be more geriatric minded with the implementation of senior friendly practices such as the Senior ER

Senior Market Research Analyst. Orlando, FL
Advent Health | 01/2014 - 06/2015

- Oversaw data analytic needs for two hospitals across varying departments to support growth
- Led out on supporting data to move forward with a \$10-15M project in the East Orlando market
- Company-wide super user for Crimson Market Advantage for physician claims based analysis
- Designed dashboard reports for physician recruitment based on claims data
- Launched new market assessments for the facilities with multi-faceted data points to display big picture
- Designed and developed new strategic opportunities utilizing market-specific data for three ancillary markets and two service line health institutes

- Trained team members and oriented end users drive success and develop personal growth
- Assisted department leadership assuming roles on advanced projects for corporate leadership
- Partnered with campus marketing department on strategic market initiatives to maximize budget and increase overall new revenue
- Reported marketing and business development data analysis to executive leaders to support the growth of two campuses
- Established new strategic reports for each supported facility based on needs of departments/leaders
- Identified strategies of clinical outreach, referral source strengthening and improvement, and report chart changes for physician liaisons to assist in promoting growth
