Current Medicaid Eligibility

Statewide Medicaid Managed Care

- Implemented in 2013-2014.
- Most Medicaid recipients must enroll in the Managed Medical Assistance component of the program.
- Managed Medical Assistance plans must cover most Medicaid state plan services, including mental health and substance abuse services.

Provider Network Adequacy

- Plans must meet network adequacy requirements specified in the SMMC contract.
- There are specific network adequacy requirements for mental health and substance abuse services providers.

Provider Network Adequacy (cont.)

- Network adequacy requirements are in place for:
 - Board Certified or Board Eligible Adult and Child Psychiatrists
 - Licensed Practitioners of the Healing Arts
 - Licensed Community Substance Abuse Treatment Centers
 - Inpatient Substance Abuse Detoxification Units
 - Fully Accredited Psychiatric Community Hospital (Adult and Children) or Crisis Stabilization Units/
Freestanding Psychiatric Specialty Hospital

Performance Measures

- Plans must report on mental health and substance abuse-related performance measures:
 - Antidepressant Medication Management
 - Follow-up Care for Children Prescribed ADHD Medication
 - Initiation and Engagement of Alcohol and other Drug Dependence Treatment
 - Follow-up after Hospitalization for Mental Illness
 - Mental Health Readmission Rate

Specialty Plan

- A Managed Medical Assistance plan that serves Medicaid recipients who meet specified criteria based on age, medical condition, or diagnosis.
- When a recipient meets the eligibility criteria for a specialty plan, the Agency will assign the recipient to that plan.
- Specialty plans may:
 - offer additional expanded benefits
 - report on additional performance measures
 - have enhanced provider network standards

Serious Mental Illness Specialty Plan

- Serves recipients ages six and older who are diagnosed with or in treatment for a serious mental illness:
 - Schizophrenia
 - Schizoaffective Disorder
 - Delusional Disorder
 - Bipolar Disorder
 - Major Depression
 - Obsessive Compulsive Disorder; or
 - Recipients who are treated with a medication commonly used to treat a disorder listed above.
- **40,814** recipients are enrolled in this plan (Feb 2015).
- Magellan Complete Care is the specialty health plan

Serious Mental Illness Specialty Plan

- Expanded benefit: medically necessary intensive outpatient therapy for substance abuse
- Additional performance measures:
 - Diabetes screening for people with schizophrenia or bipolar disorder who are using antipsychotics
 - Diabetes monitoring for people with diabetes and schizophrenia
 - Cardiovascular monitoring for people with cardiovascular disease and schizophrenia
 - Adherence to antipsychotic medications for individuals with schizophrenia
